

BOB RHODUNDA
CANDIDATE
STATE REPRESENTATIVE
10TH DISTRICT
"MAKING STATE GOVERNMENT MORE EFFICIENT"

October 7, 2010

The Honorable Carolann Wicks
Secretary Delaware Department of Transportation
P.O. Box 778
Dover, Delaware 19903

Dear Secretary Wicks,

I am a candidate for State Representative of the 10th District which represents constituents in Centerville, Brandywine Hundred and Claymont.

It is my understanding that there is a proposed safety improvement project plan for the SR52/SR82 intersection. Part of that intersection is within the 10th District. I would like to ensure that the plan meets its goal to increase the safety of travelers while at the same time addressing community concerns.

I am hereby joining the efforts of 4th District State Senator Michael S. Katz, 4th District State Representative Gerald L. Brady, and 12th District State Representative Deborah D. Hudson in their quest to convene a community wide public hearing to enable DeIDOT representatives to present the intersection's safety issues and their proposed design solutions, and hear the community's response. I applaud these three leaders for their continued dedication to their constituents and thank them for bringing this particular issue to light. I am a bit surprised that the incumbent representing the 10th District has not weighed in on this issue.

Nevertheless, I look forward to working with you and your colleagues within DeIDOT to resolve issues and move forward with a plan to protect Delawareans and others traveling through the SR52/SR82 intersection.

Sincerely,

A handwritten signature in cursive script that reads "Bob Rhodunda".

Bob Rhodunda
